

Engineering Work Alterations

December 2020

Updated 29/11/20

FREIGHTLINER

The reported alterations below focus on routes which are operated by electric loco's (this could include class 90s).

General alterations:

No service 25th or 26th December 2020 across the UK network including the WCML and East Anglia.

GEML / East Anglia:

- 27th to 31st December, the GEML is shut on different sections of the GEML. Any freight trains operating during this period are expected to be via Ely and Peterborough assuming any run.

WCML / Scotland / NW England:

Nothing to report for the WCML at the time of writing, but this circumstance can change at short notice, so please check back for any updates.

DB CARGO

At the time of writing, I did not identify any other obvious engineering work on the WCML, which might impact on those intermodal trains worked by class 90 traction during December. However, this circumstance can change at short notice, so please check back for any updates.

The UK network will be shut on the 25th and 26th December 2020.
