

Engineering Work Alterations

February 2021

Updated 24/1/21

FREIGHTLINER

The reported alterations below focus on corridors which are operated by class 90s for Freightliner.

General alterations:

Nothing to report.

GEML / East Anglia:

- Saturday 30th & Sunday 31st January, the GEML is shut between London and Witham, diversions in place. No electric freights via Stratford.
- Saturday 6th & Sunday 7th February, the GEML is shut between London and Ingatestone, diversions in place. No electric freights via Stratford.
- Saturday 13th & Sunday 14th February, the GEML is largely shut between London and Marks Tey, diversions in place. No electric freights via Stratford.

There were no other alterations to report on for the GEML at the time of writing.

WCML / Scotland / NW England:

Nothing to report for the WCML at the time of writing, but this circumstance can change at short notice, so please check back for any updates.

DB CARGO

At the time of writing, I did not identify any obvious engineering work on the WCML, which might impact on those intermodal trains worked by class 90 traction during January. However, this circumstance can change at short notice, so please check back for any updates.
