

# Engineering Work Alterations

---

December 2021/January 2022

Updated 26/12/21

---

## FREIGHTLINER

The reported alterations below focus on corridors which are operated by class 90s for Freightliner.

### General alterations:

During the festive period, it is anticipated that a reduced intermodal service will be in operation. In addition, many services that do run are expected to be diesel hauled due to engineering work on the GEML and other routes over the festive period.

### GEML / East Anglia:

- 28<sup>th</sup> December – GEML closed due to engineering work (diversions apply)

There were no other dates during December and January, which will be affected by engineering work. This was the state of play at the time of going to press.

### WCML / Scotland / Midlands / NW England:

- 27<sup>th</sup> to 30<sup>th</sup> December – late night engineering work at Northampton (diversions apply)

There were no other dates during December and January, which will be affected by engineering work. This was the state of play at the time of going to press.

---

## DB CARGO

No alterations to report on at the time of writing.
