

Engineering Work Alterations

June 2021

Updated 30/5/21

FREIGHTLINER

The reported alterations below focus on corridors which are operated by class 90s for Freightliner.

General alterations:

Nothing to report.

GEML / East Anglia:

There were no planned closures of the GEML between Stratford and Ipswich during June. However, the route via March is closed on the first two weekends of June, which will result in diversions via the GEML – if these are diesel or electric remains to be seen.

WCML / Scotland / Midlands / NW England:

- Saturday 5th to Sunday 6th – The WCML will be shut north of Carlisle resulting no electrically hauled intermodals operating during this period. Diversions using diesel traction will be in operation. In addition, there are other sections of the WCML are shut too during the weekend.

There were no other alterations to report on affecting the WCML at the time of writing.

DB CARGO

- Saturday 5th to Sunday 6th – The WCML will be shut north of Carlisle resulting no electrically hauled intermodals operating during this period. Diversions using diesel traction will be in operation. In addition, there are other sections of the WCML are shut too during the weekend.

There were no other alterations to report on affecting the WCML or other routes that DB90s might use at the time of writing.
