

Engineering Work Alterations

June 2022

Updated 30/5/22

FREIGHTLINER

The reported alterations below focus on corridors which are operated by class 90s for Freightliner.

General alterations:

This month looks to be quieter and less disruptive compared to the last few months. A high-level summary has been provided below.

GEML / East Anglia:

- Jubilee Bank Holiday weekend – no major engineering work, but there will be fewer intermodals operating compared to the usual weekday and weekend operations.
- Monday 13th to Friday 17th June inclusive – late night engineering work will be taking place blocking all lines between Witham and Colchester. Some intermodals to and from Felixstowe will divert via Ely and or be retimed.

WCML / Scotland / Midlands / NW England:

- Jubilee Bank Holiday weekend – no major engineering work, but there will be fewer intermodals operating compared to the usual weekday and weekend operations.
-

DB CARGO

During the month of June, there is some engineering work taking place, which will impact on the intermodals worked by 90s. See high level details below.

WCML / Scotland / Midlands / NW England:

- Jubilee Bank Holiday weekend – no major engineering work, but there will be fewer intermodals operating compared to the usual weekday and weekend operations.

- Saturday 11th and Sunday 12th June – the WCML is shut north of Carlisle for the weekend. Intermodals usually booked to be hauled by 90s will be affected.
-
