Freightliner

70008 was enroute from Hardendale to Tunstead on 6H51 when the loco was declared a complete failure at Shap Summit. In a surprise move, 90005 was sent light engine from Crewe to rescue the train. The 90 hauled the freight along with 70008 DILT as far as Basford Hall, which ran in a new path as 4Z51

For info, TOPs is showed several inconsistencies for the class 90s today, therefore, the allocations and locations shown below may not be accurate (it looks like the input data was entered incorrectly, which is most unusual).
