Engineering Work

Please note that planned engineering work took place today from midday in the London area, which meant a half-hourly shuttle operated between Norwich and Witham only. The diagram workings from the above allocations no longer applied once the line shut. The last loco-hauled train out of London was the 11:30 down using 90008 and the last through service from Norwich was the 10:00up (1P27), which died in London.
