LSLO Pool (Locomotive Services)

On the exceptionally warm morning of the above date and in a surprise move, 90002 worked south from Crewe after taking over from 47593 with the Dumfries to London Euston private charter which ran as 1Z39 and had 47501 DOR. Upon arrival at Euston, the stock returned to Crewe HS as 5Z39 with 47501 in charge and 90002 DOR.

In addition, 90001 could be found spare at Crewe HS.

DB Cargo

Due to the unprecedented heatwave which affected the UK, intermodal traffic was severely disrupted following various incidents of OLE damage.

In addition, 90035 and 90037 were working 4M25 today when the general fault light came on involving 90037 in the Law Jn area. The train returned to Mossend where it was subsequently cancelled. Unfortunately, I am unable to confirm what took the train back to Mossend (it may have been a rescue engine or the 90s).
