Intermodal Issues

In the early hours of the morning 90047 and 90049 could be found working 4M49 Coatbridge to Dagenham. However, 90047 was detached from the train at Carlisle with an air leak. This resulted in 90049 going forward solo. Note that 90047 was then transferred to Crewe for reps, but it is unclear if the loco went on its own or if was assisted or dragged DILT on a freight train.
