

**EFFECTIVE FROM 20<sup>TH</sup> JANUARY 2018 UNTIL FURTHER NOTICE**

GA require 10 sets of stock for 15 locos on Saturday's. The trains listed below should be correct, but as ever mistakes can be made, so get in touch by email if I have omitted any errors (last updated 9/12/12).

Engineering work also takes place on some Saturdays and in the late evening. These alterations therefore affect Saturday services. Headcodes generally remain the same during engineering work periods. One unit diagram too (see below).
