

**EFFECTIVE FROM 20<sup>TH</sup> JANUARY 2018 UNTIL FURTHER NOTICE**

GA require 10 sets of stock for 15 locos. The trains listed below should be correct, but as ever mistakes can be made, so get in touch by email if I have omitted any errors (last updated 20/1/18). In addition, there are no **unit** diagrams to worry about for Saturday operations between Norwich and London.

On the odd occasion engineering work takes place on Saturdays mostly in the late evening and will therefore affect Saturday services. Headcodes generally remain the same during engineering work periods.
