

Engineering Work Alterations

September 2020

Updated 23/8/20

GREATER ANGLIA

Please note previous advertised service alterations for Greater Anglia will NO longer be reported here since the finishing of loco-hauled operations and all trains are now units.

FREIGHTLINER

The reported alterations below focus on routes which may have intermodal freight trains worked by class 90s.

GEML / East Anglia:

There was no major planned engineering work at the time of writing affecting the GEML on Saturday's or weekdays during August and September 2020, which might impact on electrically hauled intermodals via Colchester. In addition, please note there is engineering work taking place between Ipswich and Ely on each weekend during September.

WCML / Scotland / NW:

At the time of writing, I did not identify any other obvious engineering work, but this circumstance can change at short notice, so please check back for any updates.

DB CARGO

At the time of writing, I did not identify any other obvious engineering work on the WCML, which might impact on possible intermodals worked by class 90 traction during July. However, this circumstance can change at short notice, so please check back for any updates.
